

VIKRAM SHARMA

Bangalore, KA | vikram.fake.email@example.com | Backend Software Engineer

PROFESSIONAL SUMMARY

Results-driven Backend Developer with 3 years of experience building scalable web applications. Passionate about writing clean, efficient code and optimizing database performance for data-heavy applications. Demonstrated ability to modernize legacy systems, architect resilient microservices, and deploy high-availability infrastructure to the cloud.

PROFESSIONAL EXPERIENCE

Backend Developer

TechSolutions Inc. | Jan 2021 – Present

- Developed and maintained core business logic using Python and Django, serving over 10,000 daily active users with a 99.9% uptime.
- Migrated legacy data from unstructured databases into a structured relational database architecture (PostgreSQL), improving query speeds by 40%.
- Containerized microservices using Docker to ensure consistent development, testing, and production environments.
- Integrated third-party payment gateways and external partner APIs securely, implementing OAuth2 authentication and strict rate limiting.
- Collaborated with frontend engineering teams to design clean, well-documented RESTful API contracts.

TECHNICAL SKILLS

Languages & Frameworks: Python, Django, FastAPI

Databases: PostgreSQL, MongoDB, SQLite

DevOps & Cloud: Docker, AWS (EC2, RDS, S3)

Tools & Methodologies: Git, GitHub, Postman, Agile/Scrum, RESTful API Design

EDUCATION

Bachelor of Technology in Computer Science

Visvesvaraya Technological University | 2016 – 2020
